

25 November 1986

MEMORANDUM FOR: Chief, Information and Management Support Staff, OL

FROM:

[REDACTED]

STAT

New Building Project Office, OL

SUBJECT: New Communications Services Requirements, FY 1989-93

REFERENCE:

DDA 86-1905

OC-1037-86, dtd 29 Oct 86

1. The New Building Project Office (NBPO), OL, has no new communications services requirements because the NBPO will not exist in FY 1989.

2. NBPO contacted [REDACTED] of your staff on 25 November regarding what response, if any, the New Building Communications Program Office (NBCPO), OIT, will have. Because of difficulty in contacting NBCPO, and because of the time restraint requesting a response by 28 November, [REDACTED] volunteered to make a copy of the requirement and personally contact the C/NBCPO to determine if a response was necessary, either through OL or OIT channels.

MEMORANDUM FOR: Chief, Management Staff, DA

FROM:

[REDACTED]
Director of CommunicationsSUBJECT: New Communications Services Requirements,
FY1989 through FY1993 [REDACTED]

1. The purpose of this memorandum is to once again begin the process of identifying, costing and programming resources for new communications services which will be required in the five-year period from FY1989 through FY1993. This process has been in place for several years and has proven to be an efficient mechanism to add new services to the communications network. [REDACTED]

2. It is requested that you identify all requirements for new or enhanced levels of communications services for overseas or domestic activities which will be needed by the Directorate of Administration from FY1989 through FY1993. For ease of submission, please forward all of your requirements to the Office of Communications (OC) as has been done in the past. OC and the Office of Information Technology (OIT) will then determine who has responsibility for these services. The responsible Office will then develop cost estimates for these new requirements and forward the information back to you for inclusion in the Directorate FY1989-FY1993 program plan. [REDACTED]

3. Agency components requesting new or enhanced communications services are responsible for programming and budgeting for those services for the fiscal year in which the service is to be established and for one year thereafter. OC or OIT, as appropriate, will program and budget for the service at FY+2 and beyond. Please do not include near term requirements (FY87/88) in this submission as they should have been collected in previous years. Unprojected critical requirements will, of course, be discussed on an individual basis. [REDACTED]

4. A wide range of secure wideband and narrowband data transmission services required for the current and new Headquarters buildings have been included in the new building support initiative. Should your Directorate identify other special or unique communications needs for the existing or new building, please include such service requirements in your submission.

5. The FY1989-FY1993 new communications requirements activity will be tracked within OC by the Management and Plans Staff. In order to meet critical time scheduling, please use the attached sample format and provide your new requirements to OC no later than 10 December 1986. If you have any questions, please contact
